Шрифт PT Rouble подготовлен в трех начертаниях (Sans, Serif, Decorative) и включает знаки рубля из тех шрифтов библиотеки ПараТайп, в старых версиях которых знак рубля отсутствовал. PT Rouble позволит пользователям, ранее приобретавшим шрифты без знака рубля, легко восполнить этот пробел. По приведенной ниже легенде несложно найти знак рубля, соответствующий нужному шрифту и его начертанию. В текущей версии PT Rouble – 233 разных рубля. Состав знаков по начертаниям будет расширятся. Внимание! Используйте русскую клавиатурную раскладку.
